Greg Wilson  
Administrator  
Pima Community College  
1255 N Stone Ave.  
Tucson, AZ 85709

Dear Administrator Wilson:

We have received the on-site evaluation results on behalf of your automobile technician-training program at Pima Community College for the *Master Automobile Service Technology* level of accreditation. At this time, the program has been conditionally approved due to the evaluation team's rating of standard 6 – advisory committee. The conditional approval will be in effect until the program provides the advisory meeting minutes with the mid-point compliance review. Once the program documents that all of standard 6 has been covered between the required two meetings per year, the accreditation will run concurrently to this approval.

Accreditation at the Master Automobile Service Technology level is the highest level of program accreditation recognized by the National Institute for Automotive Service Excellence (ASE). We commend you and your staff for maintaining your program's standards, and continuing to meet the industry's requirements. The explosion in automotive technology makes your high-quality automotive training program more valuable than ever.

To acknowledge your accomplishment, we are creating a certificate insert for your plaque that will recognize your school and the level of accreditation your program has achieved.

Sincerely,

Michael Coley  
President

cc: Skylar Webb, Dept Head  
Gerald Petersen, ETL

**Accreditation Expiration Date: 2/1/2026**
