

RFQ No. P20/10013 Request for Qualifications General Contractor

Answers to Vendor Questions – Questions are in black, **Answers are in red**

1. Question: In Section F1 and F2 on page 5 of the Request for Qualifications, it asks for relevant projects over the last five years. The Pima Community College Automotive Tech Center is a highly specialized project. This type and scope of work are not particularly commonplace in Tucson. In order to provide you with our most relevant experience, we would like to request an extension of the timeline for past relevant projects to at least ten years.

Answer: Pima Community College Facilities will allow the extension of the timeline for “past relevant experience” to ten years.
